Bluestone

Where timeless elegance meets enduring strength. Forged over millions of years, bluestone is a captivating natural stone renowned for its unwavering strength and alluring beauty. This remarkable material, formed through the compaction of volcanic ash, boasts a distinctive character coveted by designers and homeowners alike.

Bluestone Pool Coping Edge Profiles

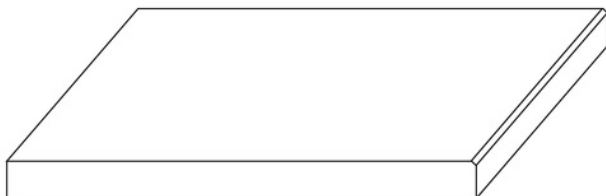

Here are few of the popular pool coping styles we stock: Drop Face Pool Coping, Bullnose Pool Coping & Square Edge Pool Coping.

Drop Face Pool Coping

This style creates a thick, bold frame around your pool, perfect for achieving a super-modern look. The drop face coping comes as a single, solid stone piece, eliminating any joints.

Square Edge Pool Coping

Square edge coping is particularly useful for sawn pavers, as it softens their otherwise sharp edges for poolside safety. Both the top and the bottom have a small bevel edge.

Bullnose Pool Coping

Featuring a smooth, rounded edge, bullnose coping is ideal for curved or kidney-shaped pools. It emphasizes a traditional aesthetic and complements character-style homes.

If you're considering crazy paving for your pool area, finding an expert installer is crucial. For those interested in crazy paving during pool installation, we're here to help! Our master stonemason can assist you throughout the process.
