Travertine

Travertine is a gorgeous and classic natural stone formed over millennia by the precipitation of mineral-rich spring water. This process creates a unique material with a distinctive pitted or veined texture and a warm, earthy colour palette. Overall, travertine is a versatile and timeless natural stone that elevates any space with its warmth, character, and enduring beauty.

Travertine Pool Coping Edge Profiles

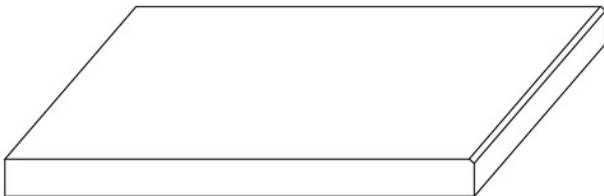

Here are few of the popular pool coping styles we stock: Drop Face Pool Coping, Bullnose Pool Coping & Tumbled Edge Pool Coping.

Drop Face Pool Coping

This style creates a thick, bold frame around your pool, perfect for achieving a super-modern look. The drop face coping comes as a single, solid stone piece, eliminating any joints.

Tumbled Edge Pool Coping

Tumbled edge coping offers a natural look for your pool with its gently rounded edges both top & bottom. This finish provides a comfortable and safe surface compared to sharp corners.

Bullnose Pool Coping

Featuring a smooth, rounded edge, bullnose coping is ideal for curved or kidney-shaped pools. It emphasizes a traditional aesthetic and complements character-style homes.

If you're considering crazy paving for your pool area, finding an expert installer is crucial. For those interested in crazy paving during pool installation, we're here to help! Our master stonemason can assist you throughout the process.
